a lot of people in this great big world  
say "love everybody"  
a lot of people busy busy busy busy busy  
being very modern

the family of noise is here  
and it's come to save everybody  
the family of noise is here  
and it's come to save you and me  
it goes:

the family of noise is here  
and it's come to save everybody  
the family of noise is here  
and it's come to save you and me

a lot of people in the ancient world  
they loved only quiet  
and then along came the machine  
and a new direction

the family of noise is here  
and it's come to save everybody  
the family of noise is here  
and it's come to save you and me  
it goes:

family of noise  
family of noise  
the family of noise

she loves you yeah yeah yeah  
she loves you and the family of noise  
she loves you yeah yeah yeah  
she loves you and the family of noise  
she loves you yeah yeah yeah  
she loves you and the family of noise  
she loves you yeah yeah yeah  
she loves you and the family of noise  
and the family of noise

in the morning  
last thing at night  
in the darkness  
standing in the light

a lot of people in this great big world  
just searching for the pure sound  
they're just looking to the machine  
they don't listen to the noise

the family of noise is here  
and it's come to save everybody  
the family of noise is here  
and it's come to save you and me  
it goes:  
in Croydon
