Rip down, up and down
The night kept coming in
There was nothing I could do
To stop your suffering

Well, it hardly does you fair
Headlines made from potty chairs
So rip down, up and down
The night kept coming in

Last chance buddy, your last chance
No re-runs, just this performance
I was wounded, she was beautiful

Rip down, up and down
The night just hung around
A chipmunk full of Beatlenuts
And a holy roller sound

Just mop, mop and that's it
Nearly made us quit
So rip down, up and down
The night kept coming in

Rip down, up and down
The night just wouldn't go
On the unsolved crimes list he is
He frisbeed his halo

For my memory
Or a dart from a Ubangi
Rip down, up and down
The night kept coming in
