

Carpenter Mary-Chapin "Tender When I Want To Be"

Visit "[Tender When I Want To Be](#)" on MotoLyrics.com

I have a heart that's proud you bet
I have a mind that won't forget
And I have arms that are strong and yet
Tender when they wanna to be
Well you can be the will that finds the way
And you can be the one who saves the day
But show me tender when it's time to say
Exactly how it ought to be

And I never would've known it darlin'
If I hadn't known about you
You said everyone can be a rock and roll like a river too

Well something happens when you find someone
Who makes you feel like you can do no wrong
No you don't have to take the whole world on
Just be tender when you want be
And I never would have known it baby
If I hadn't known about you
You said everyone can be a rock and roll like a river too

So let the waters carry us away
Wave goodbye to the old parade
Baby when we're unafraid
To be tender when we want to be
All the waters wash our cares away
All that we can see are better days
Don't ever let me hesitate
To be tender when I want to be
