I'm looking for a strong and steady heart  
For a love that won't fall apart  
At the first sign of trouble, near or far  
I'm looking through eyes that have shed some tears  
And I'm looking for that one who's gonna face my fears  
Without thinking he must erase each scar

I'm gonna find you baby, wherever you are  
Wherever you are love won't leave you stranded  
Wherever you are love won't let you hide  
Wherever you are, one of these days  
We'll be walking side by side  
All it takes is some time and destiny  
A little courage for those days when all we see  
Is a cold lonely rain coming down hard  
I'm gonna find you baby, wherever you are  
Wherever you are love won't leave you stranded  
Wherever you are love won't let you hide  
Wherever you are, one of these days  
We'll be walking side by side  
I'm looking for a love that's meant for me  
I can't be bothered with some wannabe  
Just like the light from heaven's stars  
I'm gonna find you  
I'm gonna find you  
I'm gonna find you  
I'm gonna find you baby, wherever you are
