So slit your feelings with apathy  
And get your thrills from the last line  
While you sit there and disagree  
We're moving ahead,  
We are moving beyond this machine  
(Woah)  
We're moving ahead...

Build a world inside your head  
Try to make what you can't be  
The silver lining is now dark red  
We are moving ahead,  
We are moving beyond this machine

We can make this right for the first time  
(We're moving ahead)  
We are close to the end of your line  
(You'll follow instead)

So ideal, won't work his will  
As it seemed to be  
So naive, you'll find that I  
Come to be very interesting  
So ideal, won't work his will  
As it seemed to be  
So naive, you'll find that I  
Come to be very interesting

So slit your feelings with apathy  
And get your thrills from the last line  
The silver lining is now...  
Moving ahead,  
We are moving  
Beyond this machine  
Its all your fault...  
You've lost it all...

We can make this right for the first time  
(We're moving ahead)  
We are close to the end of your line
