I'm gonna let the city take her
And wouldn't you like to know if I could change any of
this?

If you could, would you?

If you could, would you?

If you could, would you?

If you could, would you?

You hold on, it's just another day
If you could, would you try to take it back and forget all
about it?

If you could, would you?

If you could, would you?

If you could, would you?

If you could, would you

Change any of this in any other way?

If you could, would you?

The things I do to go back to you
would you fix what you put me through?
I'm just not ready, not ready, it's so true

Would you know that this is over?

And it tears me apart to know that I won't get over this

If you could, would you?

If you could, would you?

If you could, would you?

If you could, would you?

It's hard but she's to be okay

If you could, would you take back the taste of wanting
to want this?

If you could, would you?

If you could, would you?

If you could, would you?

If you could, would you?

I'm gonna let the city take her
And wouldn't you like to know?

If you could, would you?

The things I do to go back to you

Would you fix what you put me through?
I'm just not ready, not ready, it's so true

Was it worth it?
Tell me, was it worth it?
The things I do to go back to you
Was it worth it?
Tell me, was it worth it?

And now, and now you got what you wanted a fresh,
fresh taste of temptation
So tell me (if you could, would you? If you could, would
you?)
So tell me
Do you have, do you know you get what you deserve
the next best thing to temptation
So tell me (if you could, would you? If you could, would
you?)
So tell me
(If you could, would you)
Change any of this in any other way? (Any other way)
Change any of this in any other way? (Any other way)

And if you could, would you?
The things I do to go back to you
Would you fix what you put me through?
I'm just not ready, not ready, it's so true

Was it worth it?
Tell me, was it worth it?
The things I do to go back to you
Was it worth it?
Tell me, was it worth it?

If you could, would you?
The things I do to go back to you
Would you fix what you put me through?
I'm just not ready, not ready, it's so true

Was it worth it?
Tell me, was it worth it?
The things I do to go back to you
Was it worth it?
Tell me, was it worth it?
