This story keeps on growing,
All my weaknesses are showing.
I hope it's something to hold on to,
I'm on to you.
I keep on writing down,
These words you never knew about.
I hope it's something you'll hold on to.

Just as soon as you think you figured it all out,
You try it again.
Just as soon as you think you figured it all out,
She turns to you and says,
"You say that I'm a fool cause I just keep on hanging on
But I promise to you, you don't know what you've got
until it's gone."

This story keeps on growing,
I have waited, now it's showing.
I hope it's something to hold on to,
I'm on to you.
I keep on writing down,
These words that you just heard about.
I hope it's something you'll hold on to.

Just as soon as you think you figured it all out,
You try it again.
Just as soon as you think you figured it all out,
She turns to you and says,
"You say that I'm a fool cause I just keep on hanging on
But I promise to you, you don't know what you've got
until it's gone."

Bend me baby
Come on baby break me

Come on baby break me
Bend me baby
