### "No Surrender"

Struggle to break the chains  
Don't let yourself surrender  
In spite they say your name  
Our hate is their splendor  
Are you as weak as they say?  
Only time will give the answer  
Take life day by day  
For I am my own master

Rise up and fight  
To take control of your life  
What you see  
This can be for the key...  
Is you...

Struggle to break the chains  
Don't let yourself surrender  
Our strenght is in our numbers  
We will take them over  
Of force will not encumber  
Only we have the power

Rise up and fight  
To take control of your life  
What you see  
This can be for the key...  
Is you...
