Genocide, dehumanized
What the hell will you do now?
Such behaviour is a shame
Exactly who is to blame?
Got you on your knees
Led you to believe
Wash away the filth, make room for progress

Democide, dehumanized
How much more will you allow?
Manifest destiny
Vehemence without reprieve
What hopes to achieve?
The kith and kin grieve
Wash away the filth, make room for progress

Depraved methods extreme
Merciless terror regime

Development or destruction
Either way an invasion
You must destroy to create
Draconian restoration

Depraved methods extreme
Merciless terror regime
