These days are getting longer  
This song is gonna be so loud  
You know one thing you told me?  
You have a new name now

(This tim I'll stay for good)

We'll do that flash gold  
It burned my shadow gray  
Where have those far days got to now?

I saw him in the part-shade  
He put his hands down low  
What else did I see?  
What else did they show?  
You think it's so unlike me  
Why did the city change me?  
Red sky, my eyes closed  
The fire came so slow

(This time I'll stay for good)
