

Junior Boys "Playtime"

Visit "[Playtime](#)" on MotoLyrics.com

I should be in the main theme
Born to compete, you should know me
'Cause I'm not a fool, it's the truth for real
I know how to act all the way that I feel

I've been waiting for you
The things I believe that are almost true
Once for all you come marching through

I could live on a big rig
Born in the flash of a simple mistake
Itch like a kid for the right time to steal
It's over so fast you never know how to feel

So I'll hold onto you
If the things I believe are almost true
Once for all you wanted me too

Come a little closer
Stare a little longer like competitors do
'Cause this fight's forever
If it breaks up there'll be nothing to do
These things I'll prove

I've been waiting for you
The things I believe are almost true
Once for all you really wanted me too

Come a little closer
Stare a little longer like competitors do
'Cause this fight's forever
If it breaks up there'll be nothing to do

Come a little closer
Stare a little longer like competitors do
'Cause this fight's forever
If it breaks up there'll be nothing to do
