He's glancing at her from across the room that's barely
lit enough
For anyone attending the event who notice that he was
For if he made it, know that he wish that he never left
her
And buried feelings of regret would surely soon
emerge

So he'll take the pain

I only push it away
'Cause he knows he'll never forget
He let her go
And lost his only chance to know
What they could be

So many months have come and passed
He tries his very best to keep
Wait ups, maybes, and what ifs
That plauge his mind when not asleep
And for his freezing dreams
He frequents to his best ability
'Cause dreams prove to present are far more
appealing reality

So he'll take the pain

I only push it away
'Cause he knows he'll never forget
He let her go
And lost his only chance to know
What they could be
For the rest
Of his life
He'll live with this
Knowing that he gave up all he really wanted

So he'll take the pain

I only push it away
I woah...
He let her go

And lost his only chance to know
What they could be
For the rest
Of his life
He'll live with this
Knowing that he gave up all he wanted
And ever miles that won't separate them
Displeased around his doorstep
And though he's tried
He knows he won't forget
