The beat is gonna move your lips
From what I wanna taste, and your hips
Are calling me out on the floor
Girl, we can't ignore this attraction

All up on me when they dim the lights
And tonight this feels right
So baby let's close our eyes
As we fade into the distraction

You're pulling me aside your body
A lighting or you will light on me
Your hand's on my head
While it's in you
Baby, I don't mean to confuse
People, this is just what I do

The beat is gonna move your lips
From what I wanna taste, and girl, your hips
Are calling me out on the floor
Girl, we can't ignore this attraction

All up on me when they dim the lights
And tonight this feels right
So baby let's close our eyes
As we fade into the distraction

You're pulling me aside your body
A lighting or you will light on me
Your hand's on my head
While it's in you
Baby, I don't mean to confuse
People, this is just what I do

Consider this your warning girl
I'm sounding the alarm
'Cause the truth is
I mean you no harm

Consider this your warning girl
We can get it on
But know this:

As soon as I'm done, I'm gone
Gone
[Woo!]

You're pulling me aside your body
[I can't get enough]
A lighting or you will light on me
Your hand's on my head
While it's in you
Baby, I don't mean to confuse
People, this is just what I do
