I'm flying again
It's so good to pretend
I'm in love with the end

I just want to be yours

I'm falling away
It's so good to just play
I'm in love with today

Only want to be yours
I just want to be yours
Only want to be yours

You and me, all there ever is
You and me is anyone
You and me, nothing more than this
You and me is everyone, is everyone, is everyone

I'm floating in you
It's so good to be too
I'm in love with the view

I just want to be yours
Only want to be yours

I'm flying again
It's so good to pretend
I'm in love with the end

I just want to be yours
Only want to be yours
I just want to be yours
Only want to be yours
