"Never Alone"

Visit "[Never Alone](#)" on MotoLyrics.com

You're never alone

When time is tight, day is all on
Got to find the light and keep it on
In times like these sisters and brothers
Lives are a [Incomprehensible] the truth needs no color

So much to play, no time to play it
Got nothing to say, I'm gonna say it
Say it on my own

You're never alone

Was there a past, is there a future?
You got to turn your hand to whatever suits you

Whatever it takes, you've gotta take it
You keep the faith, you're gonna make it
Make it on your own

You're never alone

So much to play, no time to play it
Got nothing to say, I'm gonna say it
Say it, say it, say it on my own

You're never alone
You're never alone
You're never alone
You're never alone
