Feat. Robert Smith

Hand in hand we stand below
A perfect blue sky
You and me alone again

Hand in hand we stand under
The perfect blue sky
Waiting for the world

It's not as if we have that luck
No endless time to dream, to fall in love
To ever get to know.

If you start summer days as though
The sweetest life we ever will
If you take this before we go

A perfect blue sky
A perfect sky
A million stories left untold
A perfect blue sky
A perfect sky
A million stories left untold
A perfect blue sky

Side by side we slide below
A perfect blue sky
Not sure where; not sure when.

We always knew this day would come too soon
A perfect blue teal gray or black
And all that once was gold

The hopes we had to grow
To understand the reasons why I'll go
A million stories left untold

A perfect blue sky
A perfect sky
A million stories left untold
A perfect blue sky

A perfect sky
A million stories left untold
A perfect blue sky

A million stories left untold
A million stories left untold
