A COMMON DISASTER  
(Michael Timmins)

A candle burning for everything I've ever wanted  
A tattoo burned for everything I've ever wanted and  
lost  
I had a long list of names that I kept in my back pocket,  
but I've cut it down to one and your name's at the top

Won't you share a common disaster?  
Share with me a common disaster  
A common disaster

I found myself a friend,  
but he's crooked as a stick in water  
So now I'm writing fairy tales  
to catch the spirit of revenge  
He's got a plan to steal my little sister,  
but I'm not too concerned  
'cause I will get him in the end

Won't you share a common disaster?  
Share with me a common disaster  
A common disaster

Going to find me someone to share  
A common disaster  
Run away with me from a life so cramped and dull  
Not worry too much about the happily-ever-after  
Just keep the Caddy moving  
'til we're well beyond that hill

Won't you share a common disaster?  
Share with me a common disaster  
A common disaster
