Every day's the same day, it never changes
I hump the nine to five
I do what I do just to get by
I'm always feeling for a new life

Tonight's the night, I'm gonna settle the score
For the weekday war for my soul
Tonight's the night, I'm gonna lose control
Gonna hit the floor, act a fool

Boy, you're on the floor now
Let the music take your soul
Boy, you're gonna score now
Maybe you should just let go

Go! Go! If something happens on the floor
Go! Go! Before they throw us out the door
Go! Go! Because we want a little more
And we can't find it here we got to go

Go! Go! We got to get it to the spot
Go! Go! We got to drop it while it's hot
Go! Go! We got to do it when they not
'Cause we plot quite a lot with the skills that we got

I've been waiting for divine inspiration
From the radio station, where to go
To where the club be hoppin', the DJ be droppin'
Beatboxers boxing with some popping and locking

MC's macking, stalking folks
Lyrically attacking squawking jokes
Got the bouncers bounding, got to get pounding
When the vibe starts winding, got to go

Go! Go! If something happens on the floor
Go! Go! Before they throw us out the door
Go! Go! Because we want a little more
And we can't find it here we got to go

Go! Go! We got to get it to the spot
Go! Go! We got to drop it while it's hot

Go! Go! We got to do it when they not
'Cause we plot quite a lot with the skills that we got

We gotta step, step
We gotta hustle, hustle
We gotta get 'em, get 'em
We gotta move, move

We gotta cut, cut
We gotta get up, get up
Get ready, steady
Gotta go

Shh! This means we gotta go, go
Yeah, I know, I know
We gotta go

Go! Go! If something happens on the floor
Go! Go! Before they throw us out the door
Go! Go! Because we want a little more
And we can't find it here we got to go

Go! Go! We got to get it to the spot
Go! Go! We got to drop it while it's hot
Go! Go! We got to do it when they not
'Cause we plot quite a lot with the skills that we got

Go! Go! If something happens on the floor
Go! Go! Before they throw us out the door
Go! Go! Because we want a little more
And we can't find it here we got to go

Go! Go! We got to get it to the spot
Go! Go! We got to drop it while it's hot
Go! Go! We got to do it when they not
'Cause we plot quite a lot with the skills that we got

Go! Go! We got to get it to the spot
Go! Go! We got to drop it while it's hot
Go! Go! We got to do it when they not
'Cause we plot quite a lot with the skills that we got

Go!
Go!
