Lately I lost track of time and I can't seem to find
My piece of mind, Please excuse me for the pause but
I had to etch it down as I'm riding in the stars,
And it's all the same and we try to point fingers but
Whos to blame, so I keep my head high as I constantly
Soar trying to touch the sky

Give me a reason, give me an angel and we will take
Flight, give me the papers give me the voice and we
Will make right, so much at stake so why wait around
For, life's the sweetest when your drinking from the
nectar.

The quiet hype is the song I am,
No applause I'm the champion I'm marching to my
drum,
The quiet hype the signal that I get on your television
Set deeper and further and further it gets

Was a girl looked to her father,
Was an artist and creator loved his daughter a quiet
Genius a resonance man taught me how to write a
song
And play in a band, humble legend in his own light but
He never quiet made it to the spot light,
Didn't see past the age of 50 it's up to me to carry on
his legacy.
But if I never see my name in lights I know that it's
Gonna be alright my attentions will be true I'll keep that
in mind

The quiet hype is the song I am,
No applause I'm the champion I'm marching to my
drum,
The quiet hype the signal that I get on your television
Set deeper and further and further it gets

Here I am, all I can do is wait,
Here I stand, all on my own two feet,
On my own, nothing comes easily nothing new to me all
the same to me

The quiet hype is the song I am,
No applause I'm the champion I'm marching to my
drum,
The quiet hype the signal that I get on your television
Set deeper and further and further it gets
