[chorus]

We see a coming war

We see a coming war

Now

Can you imagine this world with no oppression?

And no need to dabble in greed and transgression

The solution for murder and prostitution

Never glorify this pollution on television

Corrupt an entire nation

Explicit images

Never freeing mumia regardless of proven innocence

Turning to crime and not using intelligence

What makes me wonder sometimes are we in hell or

Inches away from confronting the powers that be

Saw in seconds what has taken some hours to see

Temps is hot enough to melt a bullion

More than a million people are ready

For rebellion

This shit is ill

Sun set to the crack of dawn

If you're black or blonde

Uncle sam is robbing you blind and putting shackles

'pon

The minds of your children for real son

Beware this system and go to war with this institution.

They see a coming war

They see a coming war

They expect those of us who peep to not see

Medical benefits should be cheap if not free (right?)

The richest people are those without morals

'cause once they get inside they tend to keep the door

closed

Lord knows they killing us quick and clean

>from baseheads to people addicted to nicotine

Man-made diseases where skin cells corrode

To ones where if infected you die from common colds

Economical foes they pose the true threat

Using your tax dollars to sell and produce death

What's left?
We got guns and drug trafficking
Government will be backing
And blaming latin and african brothers for dirty work
done
The shit they do not only hurts young
But it's provoking revolutionary circum-
Stances
Slow like molasses
This is a message to the masses
Never ass kiss

[chorus]

Emergency, emergency, evacuate the premises
immediately
Emergency, emergency

Now
Open your ear
Cause slavery will appear
When corporate cutthroats control your career
The treats of life are toned and ain't no way the ripple
fix
Beware the microchip that replaces the triple six
Which one?
Are you a soldier who fights against fraud
Or pawns in this game on this government's chess
board?
The signs are clearly defined
It's merely your mind state
Wars coming my people so stay awake
