Chorus

Welcome to the wonderful world of entertainment
Where art imitate life and people get famous
Welcome to the world of show biz arrangement
Where lights, camera action is the language
Well here's a little something for the people in the
house
I'm a tell ya what my crew is all about

We're like raw rhythm fusion
Real rhyme producing
Songs for the worlds men, women & children
Armed & equipped with much confidence
And this is how we're gonna make our livin
Some are know for being biters
Non-creative & wack rhyme writers
They sup you up but can't rock a jam
Known to the world as a one hit band
Easy come easy go
Yo you had your turn
Temporary niggas touchin up your perm
You see a rapper is a kid that brags & acts big
A rhymer is a nigga that can handle his biz
A rapper is a kid that's trying to be the shit
An entertainer ain't trying cause he already is

We was rocking the jam the other night
J5 was on the mike so the people was hype
Yo we like to rock the party with adrenaline
And passion the crowd started screaming action
satisfaction
Nu mark drop the beat and brought the heat from the
fire
We brought the energy and street car named desire
We was flippin they was trippin how we was old
schoolin
Needle to the groove
Hands in the air movin
Then we said to the crowd this is the place to be
Whether you paid a fee or you got in free

So when you step through the door
The music gets loud
Maneuver through the crowd
To get a better view now

To be an emcee
You gotta be so fresh to have style and finesse
Way above the rest
With a strong delivery
Vocal chemistry
Street poetry in tune with the beat
So if you think you got the skill come and take a test
Microphone check if you truly are blessed
If you can flow like water and can comprehend
You need longevity in this game to win
Now if you wanna be the best you gotta move and
motivate
Watch the money that you make in the industry snakes
Cause some these people ain't got no class
And some of these folks will make you beat they ass
If you can believe
Then you can achieve, get the loot, hoop the dream
Be on top of the scene
To keep the people in it and accumulate fans
To be dope in the studio and slam at the jam

Welcome party people while we got your attention
There a few things we like to mention
The name is Jurassic
But they call us J5
We rock bonafied
Fly rhymes multiplied
We got two DJ's controllin the beat
Vocal harmonies make it sound so sweet
With the 4 horsemen
With the words to caution
Expressed then flipped in an orderly fashion
With the rhymin designing the music on timing
The fellas sayin ho & the ladies losin their minds
The breakin, scratchin, this thing called rappin
The cultivated music that keeps your hands clappin
The passion, reaction, the street satisfaction
Brothas using old tactics to make happen
The rhythm, the spirit you love it when you hear it
Now a days when samplin shit you gotta clear it

Chorus: Welcome to the wonderful world of
entertainment
Where art imitate life and people get famous
Welcome to the world of show biz arrangement
Where lights, camera action is the language
