[Eminem]

Once you call my name out things will never be the same

They shoulda never let us get our foot in this game

Ever since I was introduced to rap music
I been missin a screw like Bishop in "Juice," I could lose it

at any moment, those who know me know it
So they probably told to go with the flow, just so that
I don't explode and, have another episode
where I let it go as far as the one with Benzino did
{*gun cocks*}

I'm waitin for that next beef, I'm cocked locked and loaded

I'm ready to go so bad

I'm goin bananas, my dick's so hard Anna Nicole could use it to fuckin pole-vault with

Oh shit! I mean when she was still bloated
before they cut her stomach open and lypo'ed it

Anybody I throw flames at, gets a name
It's a game, cause they know that they don't spit the same

It's a shame, what people do for ten minutes of fame
Everyday it's the same thing

People in this game try to buddy-buddy us

Just to get close enough to study us

Everybody just wants to have somethin to do with that

They all tryna get that stamp

They after that Shady/Aftermath money

It's like a monopoly

They probably just now finally understand "How to Rob" fully

50 Cent was like a fuckin jackpot for me

And Dre, it's like we hit the fuckin lottery

and the damn slot machine at the same time as each other

Why the fuck you think we ride like we brothers?

When we rhyme with each other, in time we discovered that we had more in common that we thought with each other

Both robbed of our mothers, our fathers ain't want us
What was wrong with us, was it our fault?
Cause we started thinkin God doesn't love us
Two odd motherfuckers who just happened to meet at
the right time
What a coincidence it is, cause when 50 got shot up in
Jamaica
Queens, I still remember the call up at Chung King
cause
Big L had just got popped just a month before
If 50 lives he's gettin dropped from Columbia
Two years later me and Doc had to come and uhh
Operate, that's when he popped up at number one
And we ain't never gonna stop if you wonderin
Even if I'm under the gun
You ain't got to agree all the time with me or see eye to
eye
There'll always be animosity between you and I
But see the difference is, if it is, I could give a shit
Still gonna conduct motherfuckin business as usual
Egos aside 'fore I bruise 'em all
Swallow your pride 'fore I step on it with shoes you call
Nikes, Earthlings, how do you like these?
You gotta love 'em, look at the bottom of 'em, they're
like cleats
Stompin, I been rompin
since Tim Dog was, hollerin, "Fuck Compton"
I was whylin, freestylin
Back when, they were still makin, Maxell cassettes
It wasn't even rap sell us yet, that tells us that
any doubts in your head that seals the shit
Ricky ticky toc, ticky ticky toc
Still with the Diggy Diggy Doc, Diggy Diggy Doc
And ya don't stop...
