I remember once  
When I was still a child  
But I figured it all out  
We don't have to wait  
Too long we'll take the long way home  
They've never known about  
Sometime to feel an emptiness  
But you don't have to care  
Cause we won't rock the boat

I just wanna fall we go higher and higher  
We were so alone here we burn in a fire  
You were only one step away from the flame  
You were never there at all but I remember your name  
Your name

I've waited here for all my life  
But you don't seem to care  
Do you listen here at all  
And we have only one thing left  
But I don't want to go  
No I don't wanna know  
And we could see so clearly  
But I'm not afraid to know  
I can't see below

I just wanna fall we go higher and higher  
We were so alone here we burn in a fire  
You were only one step away from the flame  
You were never there at all but I remember your name  
Fall down I really don't wanna  
Go do you make me go farther  
Hope you have all of us in a place  
I just wanna fall down I really don't wanna  
Go do you make go farther  
Hope you have all of us in a place

I just wanna fall we go higher and higher  
We were so alone here we burn in a fire  
You were only one step away from the flame  
You were never there at all but I remember your name

I just wanna fall we go higher and higher  
We were so alone here we burn in a fire  
You were only one step away from the flame  
You were never there at all but I remember your name  
Your name
