Every day and every night it seems the fight never
ends. How can it be that
we will see, let's not pretend. The golden rule's
supposed to be all of
trust, but there was you 'n me, what's the fuss all of us,
all of us?
I'm gonna stand, stand in your way, stand in your way.
I'm gonna never,
never let you get away. Stand in your way, stand in your
way. I'm gonna
never, never let you . . . I didn't mean to cause you
pain, its so strange.
You were good, I misunderstood, why is this going
away - going away? I miss
you now with the thought of us only being me. I was
wrong and you were
right, you were right for the fight, I am down. I am
down. I'm gonna stand,

stand in your way, stand in your way. I'm gonna never,
never let you get
away. Stand in your way, stand in your way. I'm gonna
never, never let you .
. . Every day and every night it seems the fight never
ends. How can it be
that will see, let's not pretend, not pretend. The golden
rule's supposed to
be all of trust, all of trust . . . I'm gonna stand, stand in
your way,
stand in your way. I'm gonna never, never let you get
away. Stand in your
way, stand in your way. I'm gonna never, never let you .
