I know you want what I've got
But I can't give it to you like that
So let's work with what you've got
It doesn't hurt to give it a shot
Don't stop, let's try this
Start over, do it again
Get it right, this time
Get it right, this time

[Chorus:]

These thoughts are running all these circles inside my
mind
They're on it, on it, on it, all the time
And I can't let this be the thing that's always holding
me back

The answers come straight to me
As if I knew them all along
Like pieces of the puzzle
That somehow fit in places they don't
I'm still stuck, lost in something, lost in something
To be found and eventually I'll finally get it right

Hit me with your best shot
And when your breath stops
Remember me as the one who took it away

[Chorus]

[Chorus]

I know I know you want what I've got
Come on come on and hit me with your best shot

I know I know you want what I've got
Come on come on and hit me with your best shot

Hit me with your best shot
And when your breath stops
Remember me as the one who took it away

[Chorus]
