You had me at hello
Do you regret what you said?
We've got a lot to talk about,
We've got a lot to talk about.

We take regrets with the best intentions
My right hand, you left me for just one second
We got this down to the exact moment
Until the time we meet again
We'll take it back to the first time when I met you

You had me at hello
Do you regret what you said?
We've got a lot to talk about,
We've got a lot to talk about.

So pick the pedals and just speak the words you never
meant to say
But on the second time around make them so elegant
to hear
Me talk about the times we used to have, the way you
looked at me
And how you said walking away was just out of the
question.

You had me at hello
Do you regret what you said?
We've got a lot to talk about,
We've got a lot to talk about.

The space between these lines, could never keep us
apart.

Keep this in mind, and I'll keep this close by.
