Let's just start from the basics
'Cause you know how much I hate this
I can't take it anymore
But if one thing is for sure
It's that you can't trust anyone, anymore
Like I should be one to talk
I should probably just walk myself away from this one
And tell me is it easier to forgive or forget
Or have you already forgotten about me?

[Pre-chorus:]

Tell me everything, tell me what you need
And tell me what you see when you fall asleep
And you're lost in a dream, are you thinking of me?
Tell me everything tell me what you need

[Chorus:]

Tell me what you're thinkin'
Tell me what you think of me
And do you think that we could ever be?
We could start over, we could surely start over
Again if you want to, again if you want to

[Chorus]

What if I said that I didn't care?
What if I acted like you weren't there?
Would you miss me? Or just forget about me?
Just forget about me; it'll be all that I need
To completely fall apart, oh yea I'm falling apart
But I can't even let go when I can't even get a hold

[Pre-chorus]

[Chorus]

[Chorus]

This doesn't mean I'm happy
It just covers everything up
Gets me straight to the point
'Cause if you can't miss something you've never had

Then tell me why the hell this hurts so bad

Tell me what you're thinkin'

Tell me what you think of me

Tell me do you think that we could ever be?

[Chorus]

[Chorus]

'Cause if you can't miss something you've never had

Then tell me why the hell this hurts so bad
