"Another Way"

Changing times, a changing world
Evrything has a higher goal
I'll remember these days as my last
Locked down - deep down in my sould
When I go through and overlook
The decisions I've made
I can say I chose the right
And stuck to my faith
Trying to see myself in somewhere else

I try but I hit a wall and I fail
I can't find...
I can't see...
Another way

I took every step - one at a time
Had my opinions, never walked the same line
Despite your judgement I'm doing...
I'm doing just fine!
Another way - I can't see it
Another way - I can't find
No other way yea
