Waking up
Shake it off
Draw a breath to fill your lungs
I think it's time now to move

All I ever needed was a reason for you leaving me here

You never wanted me it's just that simple
Did it make you scared to know you had to let go
And everything I did I always thought I did it for you

All I ever needed was a reason for you leaving me here

Release those eyes
I swear we'll see the truth
Your lust
Your lips
We dare not speak the truth

If you could be the one that will save me
Stop driving me crazy
I think it's safe to say that you need me
But you can't believe me
I'm going crazy, crazy, crazy, baby, crazy, crazy
Girl, you got me going crazy, crazy, crazy, crazy

You made it clear that I was just a letdown
You took a chance but it just turned out wrong now
And every minute you'll just feel a little further away

All I ever needed was a reason for you leaving me here

I never said that we were meant for greatness
I guess sometimes I can't control my weakness
Happens every time I go
Every time I go
I go away

Release those eyes
I swear we'll see the truth
Your lust
Your lips

We dare not speak the truth

If you could be the one that will save me
Stop driving me crazy
I think it's safe to say that you need me
But you can't believe me

I'm going
Crazy, crazy, crazy, baby, crazy, crazy
Girl you got me going
Crazy, crazy, crazy, baby, crazy, crazy
Girl you got me going
Crazy, crazy, crazy, baby, crazy, crazy
Girl, you got me going
Crazy, crazy, crazy, crazy

If you could be the one that will save me
Stop driving me crazy
I think it's safe to say that you need me
But you can't
You can't

If you could be the one that will save me
Stop driving me crazy
I think it's safe to say that you need me
But you still can't believe me

I'm going
Crazy, crazy, crazy, baby, crazy, crazy
Girl, you got me going
Crazy, crazy, crazy, baby, crazy, crazy
Girl, you got me going
Crazy, crazy, crazy, baby, crazy, crazy
Girl, you got me going
Crazy, crazy, crazy, crazy

I'm going
Crazy, crazy, crazy, baby, crazy, crazy
(If you could be the one that will save me)
Girl, you got me going
Crazy, crazy, crazy, baby, crazy, crazy
(Stop driving me crazy)
I'm going
Crazy, crazy, crazy, baby, crazy, crazy
(If you could be the one that will save me)
Girl, you got me going
Crazy, crazy, crazy, baby, crazy, crazy
(Stop driving me crazy)
