You're in for some trouble
She's got a body and you've got the answers to
All of her problems
Prepare for the taste of
Bad moves and either's ones point of view
Soon the drinks will kick in
She's been around
And I'm coming around
I know she means well
But i'm once proven wrong
And shown twice
When you're playing these games

I swear
I'm down for
Whatever you're down for tonight
I'm the last, girl
Dripping with stress from the torment
You have put me through

There's something strange bout the way you move your
body
(Want to I don't want to I know)
I'm always finding new ways to touch your body
(Want to I don't want to I know)

You're in for some trouble
The drinks have faded
Along with her good looks
Nows the time for thinking
What have I done?
Where have my standards gone?
It all seems so strange now
An empty head and an arm across my chest
I know there's been worse
But i'm grabbing my clothes
As I dash to try and catch a ride

I'm sure

She's down
For what anyone's down for tonight

(She is going down)
I'm the last now
Dripping with the crap from the ones tonight
I spent with you

There's something strange bout the way you move your
body

(Want to I don't want to I know)

I'm always finding new ways to touch your body

(Want to I don't want to I know)

There's something strange bout the way you move your
body

(Want to I don't want to I know)

I'm always finding new ways to touch your body

(Want to I don't want to I know)

This tension is rising

I shouldn't know you like this

I shouldn't know you

This fever is driving me

It should get better than this

It should get better

This fever is driving me

It's driving me

And I don't think i can stop myself

There's something strange bout the way you move your
body

(Want to I don't want to I know)

I'm always finding new ways to touch your body

(Want to I don't want to I know)

There's something strange bout the way you move your
body

(Want to I don't want to I know)

I'm always finding new ways to touch your body

(Want to I don't want to I know)
