Don't know why it hurts so bad, it's a pain that I can't see.

Something's growing bigger, deep inside of me!

In my life I know I've made mis-takes.

Looking back on my past and I know that I got what it takes!

In the end I'll feel regrets, but now I'm feeling good!

And when I die you'll piss on my grave, and I know because I would!

When I die, don't feel sorrow for me, don't feel sad for me and see

That when I die, all regrets from my past are gone and I am free!

Here, and now I have to change cause I wanna be a man!

In that case I'll have to deal with my regrets but I don't know if I can!

I know that I can do this, if I do my best!

But I'll just, start to sweat, when I'm thinking about death!

When I die, don't feel sorrow for me, don't feel sad for me and see

That when I die, all regrets from my past are gone and I am free!

-Solo-

When I die, don't feel sorrow for me, don't feel sad for me and see

That when I die, all regrets from my past are gone and I am free!

When I die, you can piss on my grave but I don't really care

Cause when we've died, we'll be singing our songs and life is never fair!
