I scream for you

I bleed for you

We could've had songs written about us
But the words didn't have to go like this

If only our movie-like beginning
Would have a happy ending

A happy ending

A happy ending

An ending

Just a fucking ending

(Chorus)
(I cannot be
What you want me to
I cannot be
Anything like you)

Lets just end this

Lets just end this

Lets just end this

Drop the mic

(Chorus)

I scream for you
I bleed for you
We could've had songs written about us
But the words didn't have to go like this

(Chorus)
