Yeah I'm 16  
And I thought that you'd be mine  
I used to tweet you, and text you,  
And call you, and hit you on  
Facebook all the time

Yeah, but now you're gone,  
So far along,  
that I cant even find you  
You know that feeling,  
When you leave your love,  
And it's right behind you

Can't believe that you did me wrong  
We were on iChat all night long  
Listening to our favorite song  
She was wrong, I am gone  
I thought I loved her  
Never put no one above her

Yeah, she was my lover,  
But now onto another!

Baby.....
