It's Justin Bieber

I could take you to a new world
Take your problems away
Tell me what you wanna do girl
Just come right this way

I don't ever need a new girl
'Cause you're here to stay
Let me show you what I do girl
And you'll never leave

[Chorus:]

You want me
Girl you know you want me
You want me, you want me
Girl you know you want me
Right? Right? Right? Right?
Girl you know you want me, right?

And you said that you love me
Yea, I said that I love you too
But you know that you're lovely?
Flowers for nothing, just for you

You know I got you until the whole world ends
You know I got you, won't you come and be my girlfriend

'Cause you're scared to fall but you won't spread your wings
You know it's hard to fly when you ain't try new things
And I'mma be the one to make you smile for a minute
Put your head down, let it down for a minute

Baby, maybe this sounds crazy
Thinking 'bout you lately
I just need a lady, save me

I could take you to a new world
Take your problems away
Tell me what you wanna do girl (alright)
Just come right this way

I don't ever need a new girl
'Cause you're here to stay
Let me show you what I do girl
And you'll never leave

[Chorus:]
You want me
Girl you know you want me
You want me, you want me
Girl you know you want me
Right? Right? Right? Right?
Girl you know you want me, right?

I could take you to a new world
Take your problems away
Tell me what you wanna do girl
Just come right this way (alright)

I don't ever need a new girl
'Cause you're here to stay
Let me show you what I do girl
And you'll never leave

[Chorus:]
You want me
Girl you know you want me
You want me, you want me
Girl you know you want me
Right? Right? Right? Right?
Girl you know you want me, right?
