Love is a drug
And I feel like getting high
One thats mixed with a kiss
And for risking suicide
'Cuz I'm living for the moment,
I'm living for the night
I can't forget you left me paralyzed
When I'm touching your hair
It's a blast from the past.
See, the strange days are through
Ya, I know it will last
She turns me on
I cant just go all on that
I keep in my mind
Our fire's one minor task

- = Chorus = -

Whoa
I'm in trouble
(I'm in trouble)
Feels like I'm losing my mind again
(Losing My Mind)
Now I'm right back where I started
(Where I started)
I've gotta mend this broken heart of mine all over again
I've been Foolish
Foolish
Foolish
Foolish with my head held high
(Head held high)
I've wound up where I started
I'm pleading guilty to a crime that my heart just cannot
deny
(ya ya, cannot deny it)
- = -

Time is a healer
How easy we forget
All the misery and pain
That one person can inflict
Seems so soft from the game

Some select memories
I can't forget you walked all over me

No no no
Can't help myself
In the end I'm just a man
With a sentimental need
For your tender loving hands
I'm lying when I say there's no strings attached
When I look at her
I swear my mind goes blank

--Chorus--

Whoa
(Oh)
I'm in trouble
Feels like I'm losing my mind again
(I'm Losing my mind)
Now I'm right back where I started
(Where I started)
I've gotta mend this broken heart of mine all over again
I've been foolish
Foolish
Foolish
Foolish with my head held high
Girl I wound up where I started
I'm pleading guilty to a crime my heart just cannot
deny
Whoa
Ya ya
--

For one touch
For one kiss
What do I stand to lose
Baby losing my mind
Is better than losing you
Somebody tell me
Why do I gotta choose
I'm all excited
But keep getting the blues
Ya

--Chorus--

Whoa
(Oh)
I'm in trouble
(I'm in trouble)
Feels Like I'm Losing my miind again
(Losing My Mind)

Now I'm right back where I started
(Started)
I've gotta mend this broken heart of mine all over again
(All over again)
I've been Foolish
Foolish
Foolish
Foolish with my head held high
Girl I wound up where I started
(Started)
Pleading guilty to a crime that my heart just cannot
deny
Denyyyyyy
-=-

Woo Hoo Hoooo
Ya ya
Cannot deny baby
Baby
