All night, all night, all night
All night, all night, all night

I like your body, baby
Ain't nothing that can turn me away
I never wanted another
Never thought I'd be addicted this way

Never wonder, never break away
From my heart and a kiss if I touch on your body
So let me love ya, give me a heart attack
Every night, every day, when I'm up in that body

(Bridge)
Let me take it all to infinity
So I'll be here for infinity
Don't you know that I?
Forever will I
Protect you til I die
So let me do it right

(Chorus)
All night, all night, all night
All night, all night, all night
All night, all night, all night
All night, all night, all night
To infinity
To infinity

Hold you captive in my arms
Only letting go to let you sleep
I keep a watchful eye out
Leave nothing just come in your way

(Bridge)
Let me take it all to infinity
So I'll be here for infinity
Don't you know that I?
Forever will I
Protect you til I die
So let me do it right

(Chorus)

All night, all night, all night

All night, all night, all night

All night, all night, all night

All night, all night, all night

To infinity
