Little brother's got a habit
That he thinks he's got under control
And he's selling all our love
And best wishes as the hunger grows
Living by the scripture on the subway walls
He want to be a rebel but he can't find a cause

He needs something to believe in
He needs something to believe in
All he ever wanted was to get away

Little sister's getting serious
With a fella nearly twice her age
And she's aiming to move in with him
As soon as they can find a place
There's no getting through to her - there's no other way
You can't learn from mistakes that somebody else
made

She needs something to believe in
She needs something to believe in
All she ever wanted was to get away

Caught in the void of nohope and no choice
It's a nobody win situation
What can they do it's a catch 22
It's a breakdown in communication

Mum and dad are so confused
Little wonder they don't understand
Little wonder there's a wind of change
Blowing through this land
Nobody's guilty - it's a sign of the times
But we won't see the future till we open our eyes

We all need something to believe in
We all need something to believe in
We all need something to believe in
We all need something to believe in
All we ever wanted was to get away
