Blame it on my parents, blame it on my past
Blame it on the shadow all of my exes cast
You can call it my fear and insecurity
Iâ€™m just trying to rescue you from saving me

I donâ€™t want your love, its dangerous
Only time will tell when youâ€™ll become yourself
And Iâ€™ll be left up on the shelf like everybody else

I know what youâ€™re doing and what happens from now
on
Youâ€™ll make me a project, I wonâ€™t change and youâ€™ll
be gone
You can call it my fear and insecurity
Iâ€™m just trying to leave you before you leave me

I see your good intentions
But Iâ€™m walking the other direction
Cause I donâ€™t need the hurt again
Of thinking this will never end
So Iâ€™m never gonna let you in
Cause I donâ€™t need the hurt again
