in your love you've said to me
"close your eyes so that you can see,
walk in confidence, blindingly"
and you'll lead

in your death i can live again
if i die to the man i am
i'm not sure that i understand
what that means

but i will follow you lord
follow you where you lead
(repeat)

spent some change on this crucifix
but the weight of it round my neck
bent my knees and it broke my back
underneath

and i will follow you lord
follow you where you lead
(repeat)

is this the love i want
is this the love i need
is this the love i've waited
to see? (repeat 2X)

i will follow you lord
follow you where you lead
(repeat 3X)

and i will follow you
