Love, is it all that you want?  
Is it everything you've hoped for?  
Love, is it more than the word  
That you use when you look at her?

Love, it will push you around  
It will make you a poor man  
Change your picture of heaven  
Love, it will make you a man  
Then she'll make you a child again

Love, does it keep you awake?  
Does it change everything you see?  
Love, is it worth what you give?  
Is it everything you need?

Love, is it all that you want?  
Is it everything you've worked for?  
Love, is it wearing you down?
