INTRO

I worked hard all week
But now your here with me
Staring up, at a summer sky
A blanket in the truck bed
Just give me the go ahead
'Cause baby we got plenty of time

CHORUS

Crickets are singing
Country moon is shinning
I can see the fire burning in your eyes
All I wanna do, is lay you down and love you
Like there's no tomorrow, tonight
Let me whisper in your ear
Make my intentions clear
We'll just be getting started come midnight
Get in a rhythm, nobody's near listening
Just you and me for miles and miles

CHORUS (2x)

Crickets are singing
Country moon is shinning
I can see the fire burnin in your eyes
All I wanna do, is lay you down and love you
Like there's no tomorrow, tonight

((END CHORUS))

Like there's no tomorrow, tonight...
Oh baby
