Me against the water
I've got so much now to lose
Why I didn't want to bother
To fall so deep into you

How low
How low do I go?
How low
How low do I go?

I swear the call is getting louder
It's so much harder now to move
Once every city was the next step
The world was open to a brand new point of view

How low
How low do I go?
How low
How low do I go?

I didn't wanna hurt no one
I didn't wanna hurt no one
I didn't wanna hurt no one
I didn't wanna hurt no one

I didn't wanna hurt no one
I didn't wanna hurt no one

How low
How low do I go?
How low
How low do I go?

As the last of me goes under
Sinking in the water world destitute
In the back I hear the thunder
In my memory I'm falling into you
