All my life I couldn't see  
walking into doors so desperately  
and to think I have a dream,  
kept using my mind so couldn't sleep...I couldn't sleep  
or could it be that I just spent the whole night singin' I  
can't wait another day  
I love you... I love oh love you!  
take my hand come dance with me  
I can-not believe I'm here with you again  
darling I just wanna love you right I'm holding on  
to...every moment!  
cause every moment spreads its wings into sunset  
skies!  
well I cannot hold back tonight  
I love you... I love oh love you!  
everything about you baby oh.  
everything about you baby oh.

I wanna know x6

could it be that I just spent the whole night singing  
I can't wait another day  
I love you... I love oh love you  
I love you... I love you... Oh  
there's just something about you baby ...
