Home captain home
Where the flags sail high
The blood we spill is our own
Captain home

You're a salty dog
Through night and fog we row
Captain home

Our day is getting late
I see sand and sun
The wind has won

But wait
What will they say?
Though you're a shell of a man
We'll be a hell of a band someday
What will they say?

Greenwich Time
Just a little south of the grapevine
We rely on Greenwich Time
Just a little west of the train line
We rely on Greenwich Time

Stay captain stay
It won't be long
It won't be long
So stay captain stay
It won't be long
No it won't be long
So stay captain stay

Greenwich Time
Just a little south of the grapevine
We rely on Greenwich Time
The stern is yours the mast is mine
We rely on Greenwich Time
