This isn't me you're listening to  
This isn't me at all  
It's just some sounds I happen to create  
They fall upon your ears Â– I hope you like them  
Maybe not, maybe not,  
But it isn't me you're listening to at all

That isn't me you're reading there  
It's just words on a page  
It's just a bunch of symbols that I placed  
They fall upon your eyes Â– I hope you like them  
Maybe not, maybe not,  
But it isn't me you're reading there at all

It isn't you I'm loving now  
It isn't you at all  
It's just your face and everything you say  
You fall upon my heart Â– I know I like it  
Maybe not, maybe not,  
But it isn't you I'm loving now at all  
No it isn't you I'm loving now at all
