You're a little shy and I wonder why
(It's like you've never been kissed before)
Seeing you around walking off the ground
(It's like an angel at the door)
And I don't mean to tell you what to do so I won't
I just wanna be with you, don't tell me that you don't

Never break your heart hiding from the stars
(It's like our love was meant to be)
Much I wanna say every single day
(I can guarantee)
You and I will find a peace of mind it's the time
It's the way it's got to be
Why don't you kiss me

You are the sweetest girl
What can I do to make you mine
Travel across the world
And I'll be there everytime
So when you need a friend
I'll be there til the end
I'll never leave you here alone
Sweetest girl I've ever known

Baby can't you see you belong with me
(Girl you know I'll treat you right)
Side by side we'll stand walking hand in hand
(I'll hold you through the night)
And if anyone would try and steal you
Why they couldn't start
Say if you've been kept in the deepest depths of my
heart
I'll give you some time to make up your mind
(On which way you'll go)
And girl in the world we're perfect pair
(Baby don't you know)
I'm falling fast
The time had passed
I feel the ground
And I'm sure they're insecure for having you around

You are the sweetest girl

What can I do to make you mine
Travel across the world
And I'll be there everytime
So when you need a friend
I'll be there til the end
I'll never leave you here alone
Sweetest girl I've ever known

You are the sweetest girl
What can I do to make you mine
Travel across the world
And I'll be there everytime
So when you need a friend
I'll be there til the end
I'll never leave you here alone
Sweetest girl I've ever known
