A vision of you girl, across the room
A club full of people, all I see is you
You're making eyes, you realise that I'm watching you
It's so hard to believe that you're ??? me from across
the room

I've been tryin' to push up next to you all night
But I gotta wait for a moment, for me that's right
And I don't wanna sound like those other guys
But what if I never have another chance to, to tell you
Just how you make me feel
And I just gotta let you know

You're softly killing me, with just your mere words
'hello'
This may sound a bit crazy, but lately I just wanted you
to know
You strangely seduce me, with just the way you say
hello
This may sound quite forward, but honey
Is there somewhere we can go?

Normally I just can't believe, I don't act this wild
But there's something about, the way you smile at me
I feel like a child
And when you said 'hi', I almost lost my mind from the
sound of you
I can tell you're kind, you wanna go out of sight
But you don't wanna be rude

Girl I've been tryin to push up next to you all night
But I gotta wait for a moment, for me that's right
And I don't wanna sound like those other guys
But what if I never have another chance to, to tell you
Just how you make me feel
And I just gotta let you know

You're softly killing me, with just you're mere words
'hello'
This may sound a bit crazy, but lately I just wanted you
to know

You strangely seduce me, with just the way you say
'hello'
This may sound quite forward, but honey
Is there somewhere we can go?
