"Let The Groove In"

Visit "[Let The Groove In](#)" on MotoLyrics.com

Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there

Come on, shake, like you know you got something to
prove little mama
Move, like the groove's taking over you, make no
mistake
You're in the place to be by far, so let's get crazy
Like we ain't never gon see tomorrow

Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there

Shake, like you know you got nothing to lose, make it
move
Girl you know what we came to do, make no mistake
You're in the place to be by far, so let's get crazy

Like we ain't never gon see tomorrow

Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there

Cause when the groove gets on, ooh it's on
And if you need some lead, take mine
Cause when the groove gets on, ooh it's on
So let's have the night of our lives

Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there

Cause when the groove gets on, ooh it's on
And if you need some lead, take mine
Cause when the groove gets on, ooh it's on
So let's have the night of our lives

Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
Are you comfortable, right there right there
Let The Groove Get In, feel it right there
