I saw you last night
(Freak, freak)
In the powder room
Talking to your girlfriends, your girlfriends
You were looking in the mirror
(Freak, freak)
Looking so fine, Maybeline applying
Maybe later you'll give me your time

And let me take your picture
Let me take your picture, let me take your picture
Come on, baby, won't you pose for my camera?
Looking like a model, looking like a superstar
You're out of sight

I saw you last night
(Hey, girl)
In the disco
Dancing with your girlfriends, your girlfriends
Y'all were dancing to my shit like this shaking hips
Maybe I could capture you on camera and take a flick

Let me take your picture
Let me take your picture, let me take your picture
Come on, baby, won't you pose for my camera?
Looking like a model, looking like a superstar
You're out of sight

So pose, pose, pose only for my photos
Expose, expose those things you want to show
Just pose, pose, pose only for my photos
Expose, expose those things you want to show

Hey, yo, JT, let me holler at baby real quick
I got this new camera, I want to try this out on her one
time
Dig this, head, shoulders, feet and toes

Work that body go on and pose, please the crowd, easy
now

Go ahead, baby girl, cheese and smile
She said, "Mr. Mr., would it be cool if I took a picture
To hang it on the wall with the rest of the best?"
I had her back in an hour or less
He say, she say, we say play

Doggy dog take it easy, it's time to expose
I'll break off the rolls, now take off your clothes
Get real close up under the light and do that thing
Show your right, now close the doors
Now you can really give it to me go on strike a pose

I saw you last night
(Hey, girl)
At the cafe
But you wasn't with your girlfriends, your girlfriends
So I stepped up to you
(Hey, girl)
I pursued you 'cause I couldn't stand to wait
Let's date that'd be great

Wait, stop and picture, stop and picture
Baby, stop and picture
Me wit you girl, you know I can handle you
Treat you like a queen, treat you like a superstar
You're outta sight

Wait, stop and picture, stop and picture
Baby, stop and picture
Me wit you, girl, you know I can handle you
Treat you like a queen, treat you like a superstar
You're outta sight

So pose, pose, pose only for my photos
Expose, expose those things you want to show
Just pose, pose, pose only for my photos
Expose, expose those things you want to show
