(And She Said) Take Me Now

Uh...

What you waiting for?

I know you're watching me

Hey boy, come on and take me now

What you waiting for?

I know you're watching me

Hey boy, come on and take me now

Can I talk to you for a minute

You've been looking all night for your shining star

Well baby here I am, so why you waiting?

Step on over, let me show you how bad you are

Just let me take the lead

All you gotta do is let your mind be free

Lets hit the floor and cause a scene

Get real wet if you know what I mean

What you say baby?

(And she said)

Take me now

I'm hungry for your loving

(And she said)

Show me how

You got me working, honey

(And she said)

Right now

I'm hot just like an oven

(And she said)

So take me now

Boy you make me feel like I gotta dance

I gotta dance, gotta dance baby, I gotta dance...

I feel good to you, you try to hide it

And I can tell by the way you push up close to me

Your body temperature, is arising

Something's going down as far as I can see

Just let me take the lead
All you gotta do is let your mind be free
Lets hit the floor and cause a scene
Get real wet if you know what I mean
What you say baby?

(And she said)
Take me now
I'm hungry for your loving
(And she said)
Show me how
You got me working, honey
(And she said)
Right now
I'm hot just like an oven
(And she said)
So take me now
Boy make me feel like I gotta dance

You know
Don't I
Say don't I make you feel like you gotta dance

Once I get to know ya
(No)
I'm gonna show ya
(No)
That there's no better way
(Yea)
Lets dance the night away
(Yea)
I wanna control ya
(No)
Just wanna hold ya
(No)
Dance the night away
So what you say baby, what you say
(What you saying to me)

(And she said)
Take me now
(Oh)
I'm hungry for your loving
(Hungry for you)
(And she said)
Show me how
(Oh)
You got me working, honey
(Got me working)

(And she said)
Right now
(Oh)
I'm hot just like an oven
(Hot just like an oven)
(And she said)
So take me now
Boy you make me feel like I gotta dance

(And she said)
Take me now
(Oh)
I'm hungry for your loving
(Hungry for you)
(And she said)
Show me how
(Oh)
You got me working, honey
(Got me working)
(And she said)
Right now
(Oh)
I'm hot just like an oven
(And she said)
So take me now
Boy you make me feel like I gotta dance

Like you gotta dance, like you gotta dance, like you
gotta dance, no...
Like you gotta dance, like you gotta dance, like you
gotta dance, no...

Here we go now
Oh, oh

Just coasting along
You better grab me girl
